S3B2 UI using SWTML :

```
<?xml version="1.0" encoding="UTF-8"?>

<!--
public static void main(String[] args) {

        Display display = Display.getDefault();

         try {
             SWTParser parser = new SWTParser();
                Shell shell = (Shell) parser.doParse(SomeClass.class.getResourceAsStre
"/com/sheelapps/swtml/examples/s3b2.xml"));
                shell.open();

                while (!shell.isDisposed()) {
                    if (!display.readAndDispatch())
                        display.sleep();
                }
                display.dispose();
            } catch (Exception e) {
                    e.printStackTrace();
            }
    }
 -->
